ANNOUNCEMENT**

MYKOS[®] PLATINUM[™] PLUS[™]

ULTRA-FINE MYCORRHIZAE + SIX-SPECIES BACILLUS

**BUILD MORE BELOW.
GET MORE FROM WHAT YOU APPLY.**

More of what happens above ground starts with what happens below it.

MYKOS PLATINUM PLUS[™] combines ultra-fine MYKOS[®] mycorrhizae with six species of beneficial *Bacillus* to support a larger, more effective root system, improve nutrient availability and uptake, and help crops make more efficient use of applied fertility. Designed for modern irrigation, emitter, and spray systems.

EXPAND ROOT ACCESS

Mycorrhizal hyphae extend beyond the root system, expanding access to water and nutrients.

IMPROVE NUTRIENT EFFICIENCY

Supports NPK availability, nutrient cycling, uptake, and more efficient use of applied fertility.

ALL-IN-ONE BIOLOGY

MYKOS[®] mycorrhizae + six-species *Bacillus* in one easy-to-use formulation.

BUILT FOR MODERN APPLICATION

Ultra-fine formulation designed for irrigation, emitters, and sprayers.

**HIGHLY CONCENTRATED
1 LB. PER ACRE**

**LOW RATE.
HIGH IMPACT.**

Just 1 lb. per acre delivers a powerful dose of mycorrhizae and beneficial bacteria for stronger roots and greater efficiency.
